Open your hearts and your homes to a cross cultural experience.

Non-profit student Exchange Company requires host families for Japanese High School students attending Olds High School. Students would live with families in the Olds High School area for 10-month terms starting at the beginning of Feb 2018.

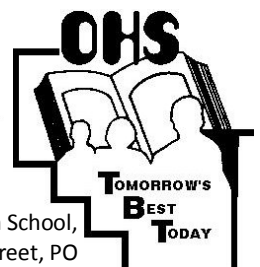

This is a great opportunity to expand the cultural horizons of your family as well as build lifetime contacts around the world.

Stipend paid monthly to host families to help offset student living expenses. Student coordinators are provided in your community for student and family support.
